Cellular Repair

Cell phones are essential! They are our first line of contact with family, friends, for business, and for emergencies. We use them for text messaging, for email communications, for capturing pictures, researching information, mapping locations, for apps of every kind, and for pure entertainment. We simply cannot live without them! That is why we provide a Cellular Care Coverage Plan to valued members. The plan will reimburse the costs associated with repairing your device if it is damaged, no matter how the damage occurred.

Direct Labs

A simple inexpensive blood test could save your life. Serious medical conditions such as heart disease, prostate cancer, diabetes, thyroid disease and more can go undetected for up to two years without noticeable symptoms. The earlier a problem is detected, the easier and more likely it is to be treatable. You now have direct access to the major clinical labs across the USA for those important blood tests at a special group rate price. You do not need a prescription from your doctor, a Direct Labs physician will provide one for you.
